### Beachfront location - 4 Star Resort

Sunset Resort is situated on the sheltered western coast of Rarotonga. Boasting an absolute beachfront location, Sunset Resort provides our guests with the opportunity to experience stunning sunsets, swim and snorkel in the clear blue waters directly off the beach, during whale season (June – Sept) sight these majestic mammals as they swim by, relax in a hammock or lounger on our pristine, white sandy beach under the palm trees.

Our location on Rarotonga is perfect - close to the International airport, the main town of Avarua and the famous Punanga Nui Market. In our local area there are exciting activities and tours on offer, along with the golf course, bakery and brewery close by. Excellent cafes and restaurants are within walking distance. With only 35 Suites and Studios, Sunset Resort has all the services you would expect at a large resort, but comes with a friendly, intimate atmosphere.

Our Suites and Studios are located either beachfront or amidst tropical gardens near one of our two swimming pools. All our rooms are air-conditioned and have insect screens. Some of our suites have accessible bathrooms, and with paved pathways throughout the resort, the property is ideal for our guests who have mobility difficulties.

## We are Eco-friendly

Rarotonga is paradise. We are working to protect and minimise our impact on the precious resource and where possible reduce waste going into the landfill. We provide UV treated water suitable for drinking, water is heated by solar, guests can choose to reuse towels or have them changed daily. Small plastic 'one time use' toiletry bottles have been replaced with larger dispensers. Within the resort we are growing fruit trees, treated grey water is used on our gardens, food scraps, glass, cardboard and plastics are separated and recycled.
