

Plantation Island Resort Announces Major Central Facilities Addition: *New dining, wellness, rooms and leisure amenities are set to elevate the guest experience*

Fiji, 27 March 2025: Plantation Island Resort, one of Fiji's most beloved destinations, is excited to announce the commencement of the addition of a central facilities development, set to begin in April 2025 and conclude by late 2026. This new phase will introduce a range of innovative dining, wellness, and leisure experiences, elevating the resort's offerings and reinforcing its status as a premier destination for travellers seeking unforgettable Fijian escapes.

Summary

Location: Volleyball court area behind Snack bar

Timeframe: April 2025 until late 2026

Development: Work will take place 8am-5pm daily, with noise kept to a minimum

Description: Development of two new restaurants, a bar and lagoon style pool area.

Work will be conducted away from the rooms and we expect minimal impact to guests. All facilities and services will remain operational.

Relocation of Services:

Activities bure and water sports will be relocated to the beach area between Tavola and Copra restaurants. The inflatable waterpark will also be relocated to this area.

Day tour operators will be relocated to the arrival's jetty.

Snack bar menu is now available at Coco Hut.

A Sneak Peek at the New and Upgraded Amenities To Come

As part of the exciting central facilities addition, Plantation Island Resort will create a range of new facilities that will enhance the guest experience. These additions reflect the resort's commitment to continually evolving and offering unforgettable escapes for visitors. The upcoming improvements include:

- **A brand-new dining venue, Baravi Mediterranean Kitchen** – This restaurant will showcase Mediterranean flavours with a central focus on a traditional Italian woodfire pizza oven, creating a dynamic focal point at the heart of the space.
- **Replacement of Brigham Bar** – The iconic beachfront bar will be recreated in a new location with a brand-new look and enhanced offerings, promising a vibrant space to relax and enjoy the ocean views.
- **A New Buffet Restaurant** – The new Copra Restaurant will be reinvented, continuing to serve diverse and delicious buffet-style meals in a spacious and relaxed setting that welcomes guests to indulge in Fijian flavours.
- **A New Pool** – The addition of a beautifully designed lagoon style pool with toddler's pool and waterslide will offer guests even more space to relax, swim, and enjoy the island's tropical beauty. Whether lounging poolside or cooling off on a warm day, this new amenity will complement the resort's already exceptional leisure offerings.
- **Expanded Wellness Facilities** – Set to open in April 2025, Senibua Spa will feature six treatment rooms offering a range of luxurious services that have been designed by Debra Sadranu of Nama Fiji. Guests can unwind with therapeutic treatments while enjoying the tranquil island atmosphere.
- **New Accommodation Options** – Due to increased demand, the resort is adding six new Beachfront Bures and three new Two-Bedroom Garden Bures. These will offer separate bedrooms, a lounge area, and modern amenities while maintaining the island's signature charm. The Beachfront Bures will also feature an outdoor shower and patio with breathtaking lagoon views. These are due to open in mid-2025.

In addition to the refreshed design, the guest experience will be enhanced through a more streamlined layout. Although all current services will continue as usual.

Stage One in Review: The Upgrades Shaping a New Era

In recent years, Plantation Island Resort has undergone a series of exciting upgrades. These improvements have enhanced the resort's offerings, providing guests with more rooms, more dining, and more amenities and experiences to enjoy during their stay.

Among the completed upgrades is the Tavola precinct which includes **40 new Beachfront Hotel Rooms**, the introduction of a **Retail Arcade**, featuring a mini mart, bottle shop, hairdressing salon, and the popular **BataBata Milkbar**, known for its delicious ice cream and sweet treats. The resort's dining options have also expanded with the opening of a la carte **Tavola Restaurant & Bar** and **Bowl**, a fresh poke concept salad bar, offering healthy and vibrant meals for guests.

The **Tavola pool area** has been reimagined as a prime relaxation space, now featuring additional seating and daybeds for a more comfortable and leisurely atmosphere. Families and thrill-seekers alike now also enjoy the **Jungle Water Park**, which launched off Plantation Island Resort's beachfront in 2024, complete with slides, trampolines, and a Tarzan swing for an action-packed adventure.

To ensure minimal disruption during construction, the development will be carefully managed and is located some distance away from guest accommodation and leisure areas. **The water sports activities bure will be moved to the area between Tavola and Copra Restaurants; the inflatable waterpark will be relocated to the same area, and the day tour and off-site excursions will depart from the jetty at the Tavola area.** This adjustment will optimise guest circulation, ensuring easier access to exciting adventures, and provide a smoother flow throughout the resort to ensure uninterrupted fun and adventure.
